1

Run tests on your site

Enter your site's URL to see how well it performs across all audits.

2

Look at what matters

See your site's performance across the areas you care about.

Each test comes with helpful steps to improve your site's results.

How your site is measured

When you measure your site, web.dev uses [Lighthouse](#), an open-source, automated tool for improving the quality of web pages. Lighthouse will audit your site in the following categories:

Performance

Audits for metrics like first paint and time to interactive to determine lag.

Best Practices

Looks for everything from HTTPS usage to correct image aspect ratios.

SEO

Checks for best practices to ensure your site is discoverable.

Accessibility

Checks for common issues that may prevent users from accessing your content.

All tests are run using a simulated mobile device, throttled to a fast 3G network & 4x CPU slowdown.
